

March 2019

The loss of Rob Restuccia is immeasurable and the impact of his life-long work stretches far beyond Massachusetts. Long before there was a Children's Mental Health Campaign, Rob gave voice to children and families seeking to access quality health and mental health services. As Executive Director of Health Care For All, Rob established the Children's Health Access Coalition leading the call for the establishment of the Children's Health Insurance Program (CHIP) and the Children's Medical Security Plan as well as a strong Medicaid Program that addresses the needs of kids.

Rob showed us the power of collaboration and partnership to enrich and achieve an advocacy platform that stands for the most vulnerable among us. Most important, he challenged all of us to aim higher. The Children's Mental Health Campaign will miss his leadership, passion and strength and commits to honoring his life by continuing his work.

THE CHILDREN'S MENTAL HEALTH CAMPAIGN is a large statewide network that advocates for policy, systems, and practice solutions and shared responsibility among government and institutions to ensure that all children in Massachusetts have access to resources to prevent, diagnose, and treat mental health issues in a timely, effective, and compassionate way.

The CMHC Executive Committee consists of six highly reputable partner organizations: The Massachusetts Society for the Prevention of Cruelty to Children, Boston Children's Hospital, the Parent/Professional Advocacy League, Health Care for All, Health Law Advocates, and the Massachusetts Association for Mental Health. The CMHC network includes more than 200 organizations across Massachusetts.
